About This Game

Mirror Drop is a psychedelic 3D puzzle game where you maneuver a reflective sphere in a world full of mirrors, over-saturated colors, and infinities. Each level contains three puzzles and a hidden exit, set against 100% raytraced alien geometry.

- 25 levels
- 3+ hours of content
- 3 save slots (auto-saves after each level)

Title: Mirror Drop

Processor: Intel Core i3

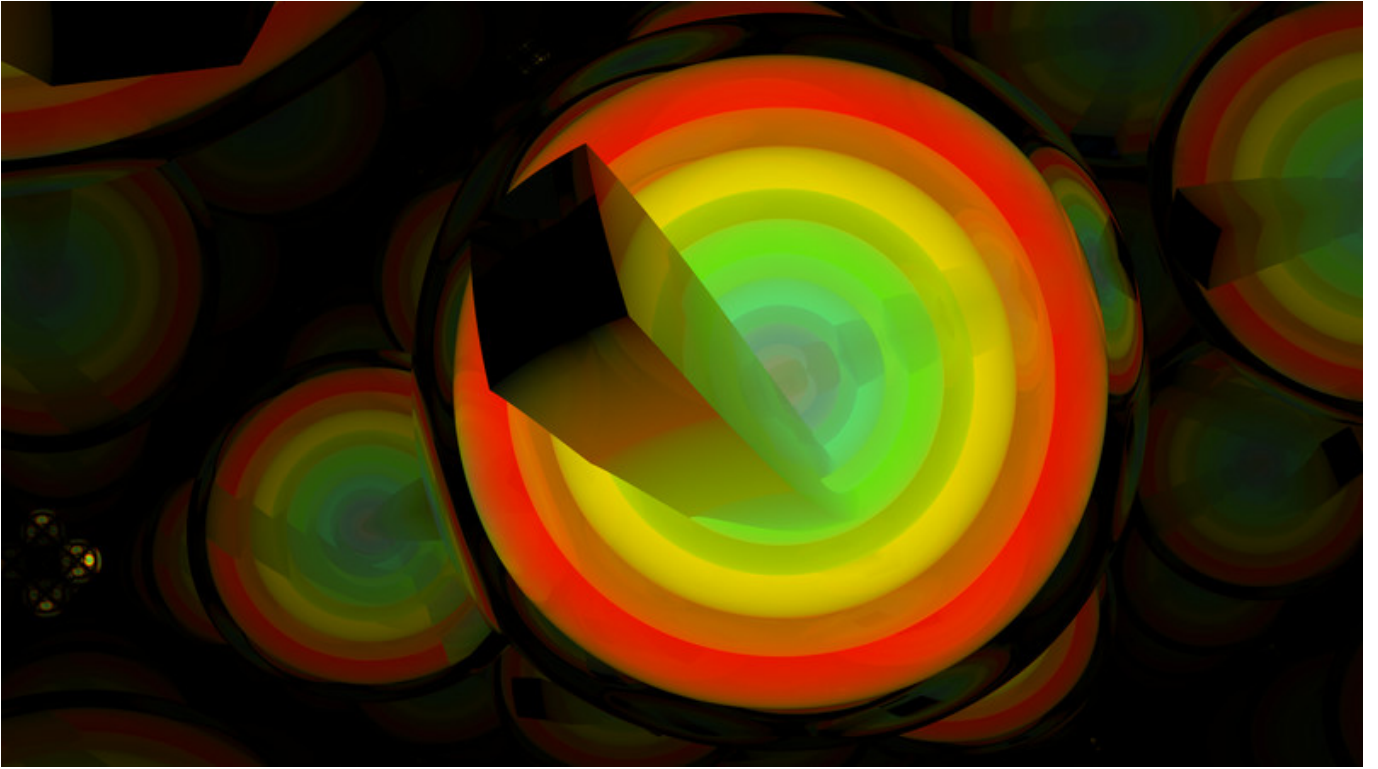

Memory: 100 MB RAM

Graphics: NVIDIA GTX 460 / AMD Radeon HD 7750

Storage: 30 MB available space

English

Great puzzle solving game with an interesting 'introduction'. I had to stop the game so I could write a review.

I have never been 'wowed' in a game since..

The videos DO NOT do it justice. It's the most beautiful work of art. My jaw actually dropped.

with a 144hz monitor and 1080ti, this game does have any concept of pixels or jagged edges.. its always a smooth framerate.

@Devs, I don't know what magic you did, but this is amazing.. There is no game that has ever managed to mess with my spatial awareness so profoundly. Not even Portal.

Great puzzles, too!
